PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building responsive web applications using React.js, JavaScript (ES6+), HTML5, CSS3 and REST APIs. Familiar with client-side routing, API integration, responsive UI and Git-based workflows through live projects and internship training. Currently expanding full-stack development skills with Node.js, Express.js and MongoDB to build scalable and user-friendly web applications.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), HTML5, CSS3, Python	**Database**	MongoDB (basic)
Frontend	React.js, Vite, React Router, Tailwind CSS, Responsive Design	**Tools**	Git, GitHub, NPM, Vercel, Render Postman, MongoDB Compass.
Backend	Node.js, Express.js, REST APIs	**Core Concepts**	Component-Architecture | REST API | DOM | Responsive & Cross-Browser Design.

INTERNSHIP / TRAINING EXPERIENCE

Frontend Development Trainee — Job Portal Web Application | Skillians Academy (Certified Internship via Ai Brix)
April 2026 – August 2026

- Completed a mentor-led training program, collaboratively building a live Job Portal web application using React.js and Tailwind CSS as part of the training cohort.
- Built reusable React.js and Tailwind CSS components for a live job portal application, including responsive UI, job listings, search & filter functionality and user authentication.
- Implemented client-side routing (React Router) and integrated NPM packages such as React-toastify for real-time user notifications.
- Followed best practices in component-based architecture and clean code structure under mentor guidance.

PROJECTS

Vaikunth Divine Journey | *React.js, Vite, Node.js, Express.js, MongoDB, JWT* | Live Demo: *vaikunth-devine-journey.vercel.app*

- Built a full-stack devotional platform featuring Dashavatar, sacred temples with maps, and Vishnu Puran stories.
- Implemented JWT authentication, user profiles, and favorites functionality using MongoDB.
- Developed REST APIs with Node.js and Express.js and deployed the application using Vercel and Render.
- Integrated interactive temple maps to help users explore sacred temple locations.

Country Explorer | *React.js, Vite, REST API, Tailwind CSS* | Live Demo: *country-explorer-zeta-five.vercel.app*

- Built a responsive Country-information explorer in React.js, integrating a public REST API to render live data.
- Implemented dynamic search and region-based filtering to improve content discoverability and UX..
- Implemented pagination, sorting and filtering to enhance data discovery and application usability.
- Deployed and hosted the application on Vercel with a fully responsive, mobile-first layout.

URL Shortener | *HTML, CSS, JavaScript, Node.js, Express.js, MongoDB* | Live Demo*: url-shortner-six-wine.vercel.app*

- Built a URL shortening web application with a JavaScript frontend and Express.js backend.
- Implemented REST API endpoints to create and retrieve shortened URLs.
- Integrated MongoDB for storing and retrieving URL data.
- Deployed the frontend and backend using Vercel and Render.

CERTIFICATIONS

- **Full Stack Web Development** — Skillians Academy (In Progress: Apr 2026 – Sep 2026)
- **Python Programming** — Skillians Academy (Certificate Awarded, Oct 2025 – Apr 2026)

EDUCATION

Master of Computer Applications (MCA) — Uttaranchal University (2026 – 2028) | Currently Pursuing
Bachelor of Computer Applications (BCA) — Forte Institute of Technology (CCSU) (2023 – 2026) | CGPA: 6.4/10
